Dear David & Puget Sound Anglers North Olympic Chapter,

We are so grateful for your generous donation to the Salmon Coalition, thank you! Your dedication to fish and wildlife habitat restoration is appreciated and felt not only by us at NOSC, but by the entire community from our local students to our local salmon. Your stewardship efforts and investment will make a significant impact here on the Peninsula and will help meet state-wide coordination and fisheries enhancement goals. Our aim is to meet real-world needs for ecological restoration in real time as we continue to grow together.

As Salmon Coalition supporters, **you are ensuring the important restoration, education, volunteer, and outreach in our local communities.** Your contribution provides community members of all ages with opportunities to deepen their understanding and love of the Peninsula through meaningful volunteer and hands-on outdoor learning experiences such as our Spawner Survey program where volunteers count returning salmon in Chimacum Creek. As donors, you make a significant difference and keep the grassroots nature of our mission active as a steward of each project.

Additionally, through your gift, you are supporting the next generation of environmental stewards by bringing outdoor education and experiential learning into public schools, challenging students to think critically and consider their impact globally so that the land we work so hard to restore may thrive for generations to come.

We are truly grateful you are part of our community. We look forward to connecting with you throughout the year and welcome your questions and feedback in the meantime.

With gratitude,

Sarah Doyle  
Executive Director
